PROFILE

I am an IT student at SLIIT with a passion for creativity and technology. My skills include graphic design using Photoshop and application design in Figma. I enjoy combining innovative ideas with technical expertise to create user-friendly and visually appealing designs. I am always eager to learn and grow, whether it's mastering new tools or tackling exciting challenges in the IT and design fields.

- Art A
- Political B
- Sinhala B

G.C.E O/L : Achived All subject pass ,SriLanka | 2018

PROJECTS

Hotel Management system - Uni Project

Developed a responsive full-stack Menu Management System using the MERN stack with real-time CRUD, image upload, search, filter, and secure admin dashboard for managing categorized hotel menu items.

Farm Mangement system - Uni Project

The Farm Management System streamlines farm operations with a user-friendly product management tool built using MongoDB, React, HTML, and CSS.

Travel system

I built a travel app using HTML, CSS, and JavaScript that lets users explore destinations, view images, and access travel info interactively.

Coffe App -Android app / TO Do night app

coffee-ordering app with real-time tracking and intuitive UI for a seamless user experience

Figma APP - Coffe oder App / Film Store app
